

## Background

Kennerley Children's Homes has been an integral part of caring for more than over 147 years. Over the years Kennerley has continued to develop our programs to meet the needs of children and families within the Tasmanian Community. Kennerley believes that children are best placed with their family of origin but if this is not possible then Kennerley can provide placements with dedicated carers.

*We are committed to the development of children through supportive family environments & quality care.*

**TRANSFORMING LIVES**

## Can you help Kylie?

Kylie is a local Tasmanian young person in foster care completing her college years. Our program provides her with somewhere to live and call home, we provide her with the freedom to concentrate on her education not worrying about where her next meal is coming from. We provide her with a mentor to assist her in resume writing, life skills and focussing on her future.

Can you help Kylie to 'dream big' - could you sponsor a young person today knowing that your generosity will go directly towards making her journey easier. Life is hard enough.

Can you open your heart to help a young person in foster care who is just like Kylie?

## Can you help Holly?

Holly is a new born baby in foster care, we hope one day to help her to transition back to her mum's care. Our carer works with Holly's mum to role model how to care for her baby.

We have always believed that children belong with their family when its safe. We are starting to assist Holly's mum with overnight visits and we really could use some help gathering the things she needs to have for this dream to become a reality. Can you open your heart to Holly and help to get her home?

## Can you help Christopher?

Christopher has spent his short life in Foster care removed at three years of age due to family violence and his parents difficulties coping with substance abuse. Chris's parents didn't have good role models and they were very young when they had Christopher so they found parenting very hard. Chris has had to change schools many times and lived with three carers until he found his forever home.

Can you help Christopher to continue to see his psychologist regularly and his carer to have more assistance with his social skills and helping him to be in a classroom and stay at school?

## Can you help Caitlyn?

Caitlyn is seven years old. Her mum accesses our community respite program as a free service when she has treatment for a significant medical condition. Despite her families efforts to assist her grandmother can't help because she too is quite frail.

Can you help Caitlyn to feel at home when she comes into respite with her own things around her so it feels familiar and like a second home with her things right there so she doesn't need to pack a bag.

## WHAT CAN I DO?

There are many ways you can help, as a once off donation – or a regular payroll deduction, call Sue now and ask her how.

**P: 6272 5900**

Or make your donation online:  
[kennerleykids.org.au/donation](https://kennerleykids.org.au/donation)

Your donation could see Kylie learn to drive and gain her independence; Holly to be reunified with her mum, Caitlyn to feel very valued, and Christopher access to one of our scholarships for education.

All proceeds deposited with Kennerley are tax deductible.
